

SIMBA_{PVC}

Pressure Pipes & fittings

PRESSURE PIPES FOR WATER DISTRIBUTION

SIMBA_{PVC} pressure pipe is made of unplasticised poly vinyl chloride. It is the established material for the potable water & industrial fluid handling.

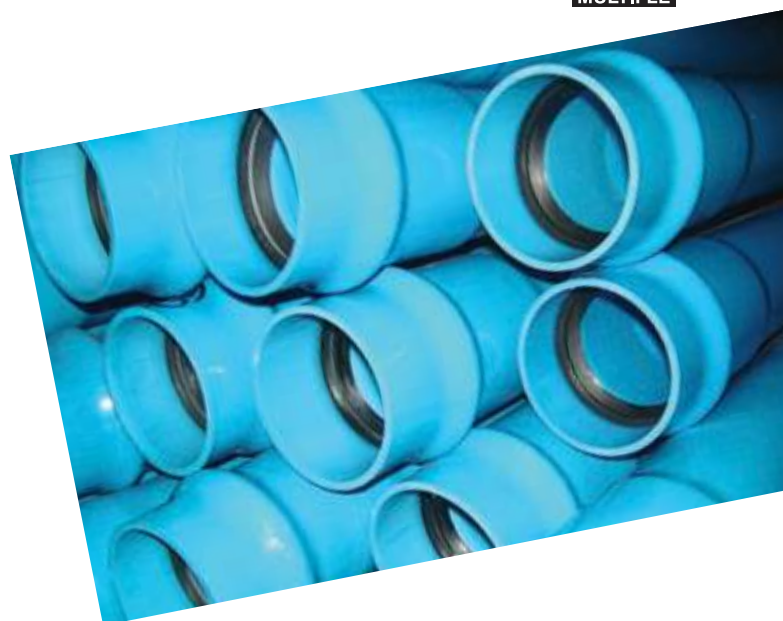

Its inherently smooth walls provide superior flow characteristics, reducing long-term operating costs.

Each twenty-foot length (6 mtrs) of pipe can be supplied plain ended, with integral solvent weld socket joint or integral rubber ring seal joint.

DIMENSIONS AND RANGE OF UPVC PRESSURE PIPES

SIZE	WALL THICKNESS (mm)				
	Series 1	Series 2	Series 3	Series 4	Series 5
OUT SIDE DIAMETER	PN 2.5	PN 4	PN 6	PN 10	PN 16
20	-	-	-	-	1.50
25	-	-	-	1.50	1.90
32	-	-	-	1.80	2.40
40	-	-	1.80	1.90	3.00
50	-	-	1.80	2.40	3.70
63	-	-	1.90 *	3.00 *	4.70 *
75	-	1.80	2.20 *	3.60 *	5.60 *
90	-	1.80	2.70 *	4.30 *	6.70 *
110	1.80	2.20	3.20 *	5.30 *	8.20 *
125	1.80	2.50	3.70 *	6.00 *	9.30 *
140	1.80	2.80	4.10 *	6.70 *	10.40 *
160	1.80	3.20	4.70 *	7.70 *	11.90 *
180	1.80	3.60	5.30 *	8.60 *	13.40 *
200	1.80	4.00	5.90 *	9.60 *	14.90 *
225	1.80	4.50	6.60 *	10.80 *	16.70 *
250	2.00	4.90	7.30 *	11.90 *	18.60 *
280	2.30	5.50	8.20 *	13.40 *	20.80 *
315	2.50	6.20	9.20 *	15.00 *	23.40 *
355	2.90	7.00	10.40 *	16.90 *	26.30 *
400	3.20	7.90	11.70 *	19.10 *	29.70 *

* Available with Flexible Rubber Ring Joints as well.

The rubber ring creates an easy-to-install push-on joint that automatically accommodates thermal expansion and contractions. Our integral-bell joint meets the same pressure capacity requirements as the uPVC pipe itself.

The rubber ring joint is available on sizes from 63mm & above and pressure rating PN6 and above. **SIMBA_{PVC}** is manufactured in metric sizes from 20mm to 400mm in range pressure ratings 2.5, 4, 6, 10 & 16 Bar conforming to DIN 8062 standard.

The equivalent standards are BS 3505, ISO 161/1 and US 264:2001.

SIMBA_{PVC} DRAINAGE PIPES

SIMBA_{PVC} drainage pipe is a strong pipe, which will last forever in your sewer system. Our pipe is flexible enough to eliminate shear or beam failure. In effect, the pipe and the earth around it join forces to make the pipe / soil system one of the strongest in the industry.

No other sewer pipe outperforms our sewer pipe at keeping sewage in and ground water pollution is no longer a concern.

Common sewer gases and corrosive have no effect. Smooth non-wetting interior walls make our pipe highly resistant to abrasion from waste or slurries.

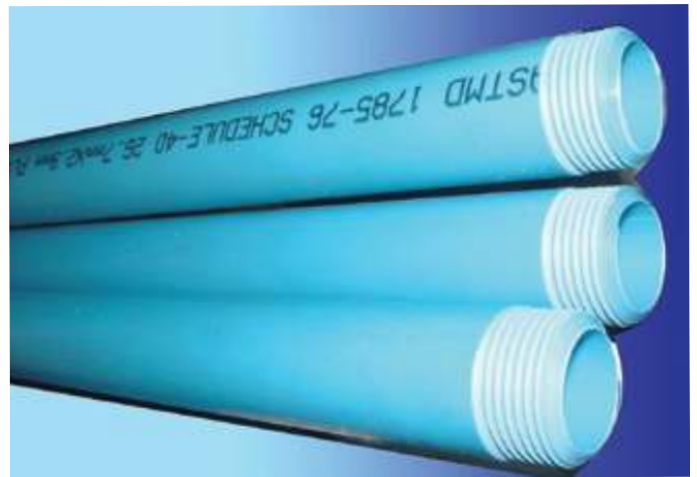

They come with a full range of drainage fittings like: Bends, Elbows, Tees, Reducers, Branch Saddles, Traps, Access plugs, Sockets, Couplers, Single and Double Y.

SIMBA_{PVC} THREADED PLUMBING PIPES FOR COLD POTABLE WATER AMERICAN STANDARD RANGE : SCH 40, SCH 80 TO ASTM D 1785-76

Multiple Industries produce a range of uPVC pipes strictly in accordance with the ASTM standards on dimensions, materials and workmanship. The pipe is manufactured from virgin unplasticized poly vinyl chloride compound. No re-worked materials are used.

The pipe is produced in Schedule 40 and Schedule 80 in sizes ½” to 2”.

SIMBA_{PVC} CONDUIT PIPES

Multiple Industries offers the highest quality PVC Conduits, from 20mm to 400mm in size.

Rigid, non-conducting PVC conduit is immune to almost to all types of corrosives such as chemical, biological, or electrochemical encountered in either underground or above ground systems.
